

Vermont Electric Cooperative Renewable Thermal Energy Assessment Program

Working with you on the road to energy independence

For your free assessment:

- 1) Call (800) 732-1399 with questions or to request an application
- 2) Complete & return your signed application with 12 months of energy bills
- 3) Receive your free renewable energy assessment within 8 weeks of sending in your materials, and use the report to make business decisions and access funding and applicable incentives

Are you interested in saving money on your energy bills at your farm or business?

The **Vermont Electric Cooperative Renewable Thermal Energy Assessment Program** provides **FREE** renewable energy assessments to help your farm or business navigate the best options for renewable energy technologies that can heat or cool your facility **AND** save you money. Renewable thermal energy – often heat pumps, biomass, or solar thermal, for examples - can be cost-effective options compared with other energy sources, but the first step is to get an analysis. We provide an unbiased, third-party evaluation of possible projects to determine viability.

Have you considered changes to your heating and cooling systems but are unsure what type is best for you? We can evaluate your options and present a comparison. Each assessment includes an economic evaluation to determine your return on investment.

Your assessment can be used to access the USDA Rural Energy for America Program (REAP), which provides grants up to 25% of your project cost and loan guarantees up to 75% of your project cost.

Call EnSave at **(800) 732-1399** today to get started

This program is offered on a first-come, first-served basis and funding is limited. Call today for your FREE renewable thermal assessment & start saving money with renewable energy!

- Heat pumps • Biomass •
 - Fuel Switching •
 - Solar Thermal •
- Hybrid Energy Systems •

Vermont Electric Cooperative

Renewable Thermal Energy Assessment Program Application

Thank you for your interest in the Vermont Electric Cooperative Renewable Thermal Energy Assessment Program. Please answer the following questions to help us understand the scope of your project. A representative from VEC's partner EnSave will call you to discuss your application once it's received. **Please call EnSave at (800) 732-1399 if you have any questions.**

SUBMIT COMPLETED APPLICATIONS TO:

Regular Mail: EnSave, Inc., 65 Millet Street, Suite 105, Richmond, VT 05477 **FAX:** (802) 434-7011 **email:** karlj@ensave.com

Contact Name:	Business Name:	
Mailing Address:	Physical Address, if different:	
City:	State:	Zip Code:
Office Phone: ()	Cell Phone: ()	
Email Address:		
Type of Agriculture or Business? (e.g. Dairy, Maple, Manufacturing, etc.)		

Do you already have a project identified? Yes No

If yes, please describe your project _____

What is the approximate cost of the project, if known? _____

If no, what type of renewable energy interests you? Heat Pump Solar Thermal Biomass Other

Describe _____

Are you interested in applying for a grant through the Rural Energy for America Program (REAP)? Yes No

- By checking this box, I am authorizing **EnSave, Inc.** to contact VEC and my fuel provider(s) to obtain 12 - 36 months of monthly energy consumption and billed charges. This information will be used only to conduct the energy assessment requested herein.
